

Hayes Center Schools

District Goals for 2011- 2012

- **Each student will be provided every opportunity to reach his academic potential through these staff developed goals:**
 - Compile, interpret and utilize data from the district wide assessment tools (Aimsweb, MAP, NeSA, and ACT) to drive instruction.
 - Insure the district has in place a scope and sequence of the core curriculum for Math, Science, Language Arts, and Social Studies and implement these curriculum maps K-12.
 - Provide differentiated instruction for all level of student in each classroom.
 - Maintain 100% graduation rate and post graduation placement that best meets the needs of the student.
- **The district will strive to ensure that there is a balance between academics and extra-curricular programs.**
- **The district will endeavor to maintain a balanced budget and ensure an ending fund balance which will provide for the districts long term needs.**
- **Computer and internet technology advancements will be used to improve teacher productivity, student learning, performance assessment and overall district security.**
- **All classified and certified staff members will collaborate to ensure that the safety of each student is met by eliminating any harassment or bullying issues. The district will provide information for all staff and students regarding our dating violence policy.**
- **The district will provide a pleasant and safe working and educational environment for each student and staff member. We will improve staff cohesiveness by providing in-service training and additional collaborative time.**
- **All lines of communication for staff/students/board of education and community members will be improved through the utilization of our district web site, building level and departmental letters to parents, newsletters to the community, use of the local newspaper and the “Code Red” program.**
